ZOOM MEETING Table Series

Licensed from Mobimex / Switzerland

Zoom Meeting recognizes the challenging multi-functional needs of today's boardrooms. Zoom's modular design allows for the optimum configuration for each occasion. Conference tables and linking tables in elm, oak, sycamore, and walnut comprise the solid wood Zoom Meeting boardroom system. Zoom reflects the solid image expected of a boardroom conference table, while its flexible design expands for multiple functions.

Tops

All tops are SOLID WOOD –
Elm (**-EE**)
Oak (**-OA**)
Sycamore (**-SS**)
Walnut (**-WW**) – *Because of length restrictions for Walnut all Mod 4 and Mod 5 tops are jointed longitudinally*

Special Sizes and Woods

Other wood tops are available as a special order. Tops may also be ordered at special lengths. Contact factory for details.

Solid Wood Characteristics

Small knots, flairs and wind checks are part of the natural characteristics of solid wood. In that each table top is made from one tree trunk, each top may vary in color and pattern because of mother nature's originality.

Surface Finishes

Zoom is available in several surface treatments according to item. These surfaces are applied to protect the wood against dirt. A decision on the advantages and disadvantages of a particular surface treatment has to be takenindividually and will also depend on the customer's personal views and preferences. There are practical considerations such as the amount of effort that has to be devoted to subsequent care, but also more subjective factors such as a pleasant "feel", the visual effect of the wood surface and the patina. It is important to consider all of these aspects of surface treatment before a final decision is made.

Tops are standard with a clear lacquer finish – a natural linseed oil finish may be specified at no upcharge.

Lacquer

Standard is a clear coat of lacquer that is applied to the raw wood to enhance the natural characteristic of the wood and add a protective coating.
No stains are available on any wood species – coloration is arrived by using different types of wood.

Linseed Oil

Optional Finish - Zoom-Oiled Finish - A natural linseed oil is applied in several coats on raw wood – SPECIFY AT TIME OF ORDER
This finish will have to be reapplied as it dries out on the product - so extended care is necessary

Finish

ZM-Black - optional Black finish on Ash for **ZM-MOD-1**

Bases

Cost of bases are included in the list price.

Stationary Base

Offered on ZOOM MOD-5, ZOOM MOD-4 and ZOOM MOD-1 only. Column available in Chrome (**-CH**), Black (**-BL**), Matte Black (**-MB**), Matte Silver (**-MS**), or Silver (**-SI**). All base plates available in Black (Matte Black when ordered on column) only.

Modesty Panels

16 gauge metal modesty panels are available on the straight or curved side of Mod-4 and Mod-5. Panels are mounted on the underside of the table top, and are available in Black (**-BL**), Matte Black (**-MB**), Matte Silver (**-MS**), or Silver (**-SI**). Use Silver when ordering Chrome.

Edges on Top Shapes

K35 edges are down bevel. K53 edges are up bevel.
